

avast! Pro Antivirus for Mac

Fast, functional design, works in real time, and simple to use – all of which gives you greater control. The same reasons people buy Mac computers are also in our avast! Pro Antivirus for Mac. Macs were more immune to malware threats in the past, but increasing popularity – i.e. greater market share, with particular user demographics – has made them a hot new target for hackers. Now you can rest assured that no virus will take away your control.

Key Features – avast! Pro Antivirus for Mac

PROTECTIVE FEATURES

WEBREP

The version 7 WebRep browser plugins provide greater protection against phishing sites, including heuristic detection of new phishing sites.

CORE TECHNOLOGIES

ANTIVIRUS AND ANTI-SPYWARE ENGINE

Innovative scanning engine protects against viruses, spyware, and other malicious agents. Also detects malware targeted to Windows.

AVAST! COMMUNITY IQ

Provides the best, most up-to-date signature-based detection because the global avast! user community provides fast samples of new viruses.
